To Whom it May Concern,

I've recently had the pleasure of experiencing the benefits of Donna Lendzyk's coaching skills. In the past, I had been hesitant to move forward with a coach but am very happy that I took the leap.

Over the past two months, Donna has helped to provide clarity and focus to my business day and my overwhelming to do list that was getting out of hand.

It's very easy to get overwhelmed to a point of analysis paralysis. Donna has helped me prioritize, plan, stay focused, take action where necessary and most importantly—has provided an element of accountability through follow up and discussion. Overall, I am finding it much easier to move ahead with business growth activities.

If you are finding it difficult to focus on activities that stimulate growth in your business or have a to do list that is getting out of control, I would highly recommend that you consider working with Donna Lendzyk. She's helping me get to the next level quicker than I could have alone. And I often wonder how I ever imagined I could get there on my own.

Many thanks to you Donna!

Best Regards,

Gina Bell, Publisher
